Page 11 shows why SSS metrics aren't relevant at this point in PTLO's growth curve: "Restaurants not yet in comparable base opened in fiscal 2023 (12 restaurants): Revenue up \$9,902 or 107.7 %".

It completely ignores the entirety of the restaurants they've built since 2022. All of their growth is excluded from that metric, which is why it's slightly negative with revenue up 7.5%.
