# Cautionary Statement

This presentation contains “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, including statements relating to our projected capital returns. We intend all forward-looking statements to be covered by the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements generally can be identified by the fact that they do not relate strictly to historical or current facts and by the use of forward-looking words such as “expect,” “expectation,” “believe,” “anticipate,” “may,” “could,” “intend,” “belief,” “plan,” “estimate,” “target,” “predict,” “project,” “likely,” “will,” “continue,” “should,” “forecast,” “outlook,” “commit” or similar terminology. These statements are based on current estimates and assumptions made by us in light of our experience and perception of historical trends, current conditions and expected future developments, as well as other factors that we believe are appropriate and reasonable under the circumstances, but there can be no assurance that such estimates and assumptions will prove to be correct. Forward-looking statements include, without limitation, statements regarding the future strategies, growth, business plans, investments, store openings, net new stores, franchise mix of net new stores, capital expenditures, capital returns, dividend and share repurchase plans, CAGR for system sales, operating profit and EPS, earnings, performance and returns, anticipated effects of population and macroeconomic trends, execution of the Company’s RGM 3.0 strategy, the anticipated effects of our innovation, digital and delivery capabilities and investments on growth and beliefs regarding the long-term drivers of Yum China’s business. Forward-looking statements are not guarantees of performance and are inherently subject to known and unknown risks and uncertainties that are difficult to predict and could cause our actual results or events to differ materially from those indicated by those statements. We cannot assure you that any of our expectations, estimates or assumptions will be achieved. The forward-looking statements included in this presentation are only made as of the date of this presentation, and we disclaim any obligation to publicly update any forward-looking statement to reflect subsequent events or circumstances, except as required by law. Numerous factors could cause our actual results or events to differ materially from those expressed or implied by forward-looking statements, including, without limitation: whether we are able to achieve development goals at the times and in the amounts currently anticipated, if at all, the success of our marketing campaigns and product innovation, our ability to maintain food safety and quality control systems, changes in public health conditions, our ability to control costs and expenses, including tax costs, changes in political, economic and regulatory conditions in China and the U.S., as well as changes in political, business, economic and trade relations between the U.S. and China, and those set forth under the caption “Risk Factors” in our most recent Annual Report on Form 10-K and subsequent Quarterly Reports on Form 10-Q. Our plan of capital returns to shareholders is based on current expectations, which may change based on market conditions, capital needs or otherwise. In addition, other risks and uncertainties not presently known to us or that we currently believe to be immaterial could affect the accuracy of any such forward-looking statements. All forward-looking statements should be evaluated with the understanding of their inherent uncertainty. You should consult our filings with the Securities and Exchange Commission (including the information set forth under the caption “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our Annual Report on Form 10-K and subsequent Quarterly Reports on Form 10-Q) for additional detail about factors that could affect our financial and other results. This presentation includes certain non-GAAP financial measures. Reconciliation of these non-GAAP financial measures to the most directly comparable GAAP measures are included in this presentation where indicated. You are urged to consider carefully the comparable GAAP measures and reconciliations.
